# Sketch Club

A diagram of a 10x10 grid of dots. The dots are arranged in a regular pattern, but several are missing or faded, particularly in the center and bottom right. The grid is composed of 10 rows and 10 columns of dots.

This diagram illustrates a complex network of neural connections, likely representing a specific functional area of the brain. The network is composed of numerous small circles, some of which are highlighted in black, and these are interconnected by a series of thin lines. The layout is organized into several distinct sections, suggesting a hierarchical or modular organization of the neural circuitry. The overall structure is dense and intricate, reflecting the complexity of the brain's neural pathways.
